

DRINKS DUMP FRIDGE

Can Display Cooler 65RC

REFRIGERATION RENTALS

The Drinks Dump Fridge is a great promotional chiller that can be branded at the point of manufacture to create maximum in-store impact.

This impulse merchandiser features integrated cold wall cooling tanks which allow the chiller to maintain a temperature of below 10°C for up to 10 hours., these tanks can be 'charged' over night then positioned anywhere in-store without the need for a plug socket. This allows stores to place the chiller in the best possible position to increase impulse purchases.

The Drinks Dump Fridge has a storage capacity of 65 litres and now utilizes R600 Hydrocarbon refrigerant to create a high performance, environmentally friendly energy efficient spot merchandiser.
